

ACCESS SOLUTIONS

Access Solutions provides universal and accessible design consulting services to promote active, safe and independent living for people of all ages and abilities.

Access Solutions staff members combine a dynamic knowledge of interior design and physical and occupational therapy to create solutions to meet the unique needs of each client. By creating a safe and supportive environment, individuals can complete daily tasks without risk of injury.

The process includes identifying a client's environmental challenges, designing practical solutions, overseeing implementation and educating the client and caregiver on the use of features or equipment.

Services include the following:

Education/Prevention

Educate clients, family members, caregivers and professionals on the concept and benefits of universal design in promoting safety and independent living

Home Access and Modification Assessments

Conduct needs assessments to determine how clients function in their homes to assure current and future needs will be met; create detailed reports that outline the issues in an environment to determine the necessary access modifications

Specialty Product Specification

Recommend and/or specify specialty products that promote safety and independence; this may include: assistive technology, adaptive equipment, decorative finishes, appliances, furniture and more

Design and Consultation

Provide consulting services to ensure proper design features by acting as a liaison and/or advocate for the client and general contractor

Funding Source Research and Assistance

Assist in locating funding sources for home modification—associations, state and county programs, insurance and healthcare providers are possible funding sources

Alzheimer's/Dementia Environment Consulting

Create a safe, purposeful and pleasing environment to increase accessibility and reduce stress, anxiety and agitation

"Thank you so much for the improvements to my home. It has made my daily life so much more comfortable and safe!"
-Virginia H.

Centrex Rehab is a Certified Rehabilitation Agency that provides a broad range of therapy solutions for skilled nursing communities, housing for older adults, assisted living, hospitals, clinics, schools and other venues.
